Sir:

I, Jose F. Nunez, declare that I am a citizen of the United States and a resident of St.
~~CRYSTAL~~
Anthony, Minnesota, and:IN 1/18/07
I, Peter J. Schmitt, declare that I am a citizen of the United States and a resident of
Garnerville, New York, and:that we believe that we are the original and first inventors of the subject matter claimed in
U.S. Patent No. 5,697,970 (hereinafter the '970 patent), entitled "Thinly Woven Flexible Graft";
that we have reviewed and understand the specification of the accompanying reissue
application, including the claims;that we believe that we are the original and first inventors of the subject matter which is
claimed and for which a reissue patent is sought; andthat we acknowledge our duty to disclose to the U.S. Patent and Trademark Office all
information known to us to be material to patentability as defined in 37 C.F.R. §1.56.

We further declare that we believe the above-identified original patent to be partly

Page 2 of 3

inoperative or invalid by reason of our claiming more than we had a right to claim in the original patent. Specifically, we believe that the original patent is partly inoperative or invalid for not including limitations in the claims that were required by the prior art.

After reviewing the specification and issued claims of the U.S. Patent No. 5,697,970 and consulting with patent attorneys for Scimed Life Systems, Inc. assignee of the '970 patent and the law firm of Hoffmann & Baron, LLP, who are outside patent counsel for Scimed Life Systems, Inc., we came to the realization that we had inadvertently failed to define over the prior art.

We believe that the error constituted inadvertent failure to appreciate the full scope of the prior art, and that the error arose without any deceptive intent on our part.

Claims 1 and 11 of the reissue application are amended to overcome the rejection in view of U.S. Patent No. 5,282,847 to Trescony. Specifically, claims 1 and 11 are amended to include a limitation for "circumferential" crimps to distinguish over the Trescony reference.

During prosecution of the application, we did not fully realize or appreciate the need for these limitations to define over the prior art. The need for the added limitations in claim 1 and claim 11 resulted from the apparent failure of ourselves and patent counsel to fully appreciate the full scope of the invention as taught by the specification with respect to the prior art.

Furthermore, all errors being corrected in the present reissue application arose without any deceptive intention on our part.

We declare that all statements made herein of our own knowledge are true, and that all statements made upon information and belief are believed to be true and further, that these
